

## BRAND GUIDELINES

UPDATED: JUNE 2024

## HOW TO USE IT

We always speak to our audience in a professional, yet friendly manner. We want to appear knowledgeable, positioning ourselves as thought leaders, while not in any way patronising.

We use straightforward language and avoid jargon, thereby including all audiences. We want to sound innovative and exciting, so we use a very inspirational writing style.

## MASTER LOGO

The Verre Anglais logo represents us at the very highest level and is vitally important to our international brand. It acts as a signature and a stamp of quality. It is, and should always be, the most consistent component in our communications. In order to maintain this consistency, a few simple guidelines should be followed.

### THE EXCLUSION ZONE

The exclusion zone gives the Verre Anglais logo the space it needs to avoid being compromised by other design elements. Use the combined height of the Verre Anglais 'V' and 'A' graphic to define the exclusion area.

### MINIMUM SIZE

To ensure that the Verre Anglais logo is always clear and legible it should never be reproduced smaller than 20mm in print applications. For digital media the minimum logo size is 120 pixels.

20mm width (print)  
120pixels width (digital)

## MASTER LOGO

A suite of logos has been created to work across four colour, mono and spot colour artwork. The Verre Anglais logo should never be recreated or typeset on any official communication.

### MASTER COLOUR LOGOS

CMYK and spot colours. The whiteout version of the logo can be used on the other Verre Anglais brand colours (see page 6).

### MONO SECONDARY LOGOS

To be used when restricted to just black and white print.

## CORPORATE FONTS FOR PRINT

The core font for the Verre Anglais brand is Avenir, with **Avenir Black** used for headlines within posters and covers.

These fonts should be used throughout all visual communications.

Headlines and subheads should only be used in UPPER CASE except when using **Avenir Book**, which should only be used in lower case.

The bold version of Avenir should only be used in UPPER CASE for secondary headlines. Where there are several levels of text used within items such as newsletters, charts and diagrams, the weight of font may be selected to enhance the design.
